

I strongly protest the action taken by Sinclair Broadcasting to force their stations to air an anti-Kerry documentary days before the election. This is entirely partisan, entirely against the democratic ideals this country was built on.

I urge the FCC to take action immediately.

If a flash of a woman's breast at a football game is illegal, so should be an entire piece of propaganda FORCED on stations. We aren't living in a dictatorship. Please preserve our rights and the free airwaves. Thank you.
